PROFESSIONAL EXPERIENCE

Software Development Intern | VibrantMinds Technologies Pvt. Ltd., Pune

Dec 2025 - May 2026

- Built Spring Boot backend features and integrated database-driven workflows with MySQL and REST APIs.
- Supported responsive frontend pages using HTML, CSS, JavaScript, Bootstrap, and React.js basics.
- Validated API behavior with Postman, fixed UI/backend integration issues, and improved user workflow reliability.
- Worked with Git/GitHub in an agile team environment to deliver and debug application features.

PROJECTS

EduSphere AI - Student Portal | Technologies: Java, Spring Boot, MySQL, REST APIs, HTML, CSS, JavaScript, Bootstrap

- Developed a Spring Boot, MySQL, and responsive UI student portal with role-based admin/student access.
- Created portal dashboards, department analytics, student record management, chatbot support, AI-powered insights, and REST APIs.
- Delivered validation, PDF/Excel export, secure environment-based admin configuration, and API tests for core features.

Daily Expense Tracker | Technologies: Java, OOP, Collections, File/Database-ready structure

- Built a Java application to add, update, delete, and view daily expense records.
- Applied OOP principles to separate transaction logic, user input handling, and reusable data models.

Scribble AI - Gesture Drawing Application | Technologies: Python, OpenCV, MediaPipe, NumPy

- Developed a hand-tracking drawing application with gesture recognition, color switching, and response detection.
- Tested recognition accuracy and optimized interaction flow for smoother real-time drawing behavior.
